WIRING & ANTENNA CONNECTIONS (sold separately)

Wiring Harness: Please visit metraonline.com for wiring harness options

Antenna Adapter: Please visit metraonline.com for antenna adapter options

Steering wheel control retention: Please visit metraonline.com for steering wheel control options

TOOLS REQUIRED

- Panel removal tool • Phillips screwdriver

Attention! With the key out of the ignition, disconnect the negative battery terminal before installing this product. Ensure that all installation connections are secure before cycling the ignition to test this product.

DASH DISASSEMBLY

1. Unclip and remove the climate control panel. (Figure A)
2. Remove (2) Phillips screws securing the radio, then unclip, unplug, and remove the radio. (Figure B)

Continue to Kit Preparation

(Figure A)

(Figure B)

KIT PREPARATION

1. Attach the (4) white plastic panel clips, and (2) black metal clips to the radio trim panel. (Figure A)

Continue to Kit Assembly

(Figure A)

KIT ASSEMBLY

1. Attach the **radio brackets** to the **radio trim panel** using the (4) #8 x 3/8" Phillips screws provided. (Figure A)
2. Slide the radio into the bracket/panel assembly from the back, and secure it using the screws supplied with the radio. (Figure B)
3. Locate the factory wiring harness and antenna connector in the dash and complete all necessary connections to the radio. Metra recommends using the proper mating adapter from Metra and/or Axxess. Test the radio for proper operation.
4. Secure the completed assembly into the dash using the factory screws.
5. Reassemble the dash in the reverse order of disassembly.

CABLEADO Y CONEXIONES DE ANTENA

(se venden por separado)

Arnés de cableado: Visite metraonline.com para las opciones de arnés de cableado

Adaptador de antena: Visite metraonline.com para las opciones de adaptador de antena

Retención del control del volante: visite metraonline.com para conocer las opciones de control del volante

HERRAMIENTAS REQUERIDAS

- Herramienta para quitar paneles
- Destornillador Phillips

¡Atención! Deje que el vehículo se asiente con la llave fuera del encendido durante unos minutos antes de quitar la radio de fábrica. Al probar el equipo del mercado de accesorios, asegúrese de que todo el equipo de fábrica esté conectado antes de encender el llave de encendido.

DESMONTAJE DEL TABLERO

1. Desenganche y quite el panel del control del clima. (Figura A)
2. Quite (2) tornillos Phillips que fijan el radio. Después, desenganche, desconecte y quite el radio. (Figura B)

Continúa con la preparación del kit

(Figura A)

(Figura B)

PREPARACIÓN DEL KIT

1. Fije los (4) **ganchos blancos de plástico para panel** y (2) **ganchos negros de metal al panel de moldura para radio**. (Figura A)

Continúa con el ensamble del kit

(Figura A)

ENSAMBLE DEL KIT

1. Fije los **soportes del radio** al **panel de moldura del radio** con los (4) tornillos Phillips #8 x 3/8" que vienen incluidos. (Figura A)
2. Deslice el radio al ensamble del panel / soporte desde atrás y fíjelo con los tornillos incluidos con el radio. (Figura B)
3. Ubique el arnés de cableado de fábrica y el conector de la antena en el tablero y realice todas las conexiones necesarias al radio. Metra recomienda el uso de adaptadores de acoplamiento adecuados de Metra o de Axxess. Pruebe el radio para asegurarse de que funciona bien.
4. Sujete el ensamble completo al tablero utilizando los tornillos de fábrica.
5. Vuelva a armar el tablero en el orden inverso de como lo desarmó.
