QUICK START GUIDE

【for BMCI】

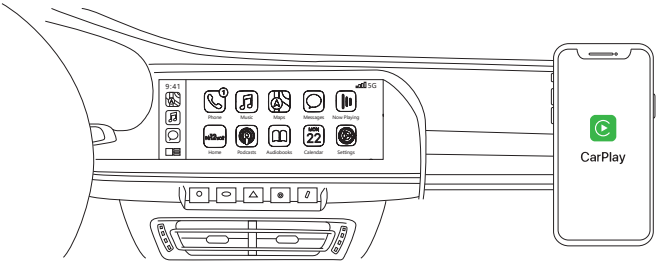

CarPlay androidauto

MR12VOLT Menu

After selecting CD , the MR12VOLT menu appears.

CarPlay

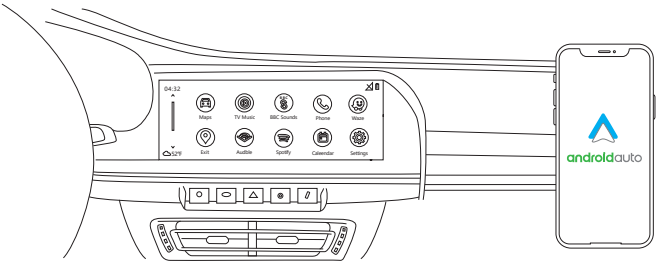

How to connect CarPlay :

1. Search for **MR12volt_xxxx** on your phone and pair it via Bluetooth.

2. Turn on “Wi-Fi” & use CarPlay.

3. CarPlay will appear on the screen. Please note that the first connection may take longer than usual.

Android Auto

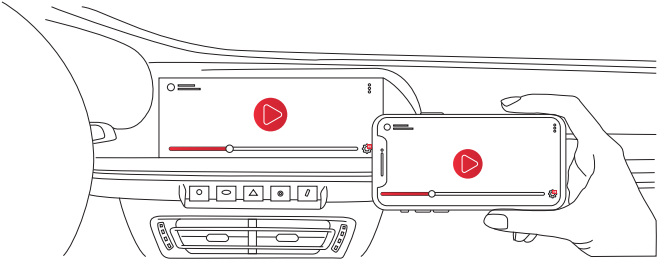

How to connect Android Auto :

1. Search for **MR12volt_xxxx** on your phone and pair it via Bluetooth.

2. The Wi-Fi on your phone will automatically turn on and connect to MR12volt for Android Auto.

Mirroring

Android Phone (Mirroring Setup)

1. Install the *Carletter Cast* application from the Google Play Store.
2. Follow the instructions in the application to complete the mirroring setup.
3. Both Bluetooth and Hotspot connections must remain active at all times for mirroring to work.
