

## VOLVO

1652-2050 TruckVision daytime running light set Volvo FH4 2015-2021

Now easily update your DRL bulbs to orange with Volvo FH/FM 2015+ TruckVision's latest DRL conversion kit. This modification kit is designed to be installed on the original headlights and is equipped with very powerful LEDs.

FI

1. Disconnect the connectors from the existing lights.
2. Remove the screws holding the original bulbs in place.
3. Carefully separate the lamps from the heat sinks.
4. Remove the previously applied thermal paste and make sure the surface is thoroughly cleaned.
5. Apply the provided thermal paste in a thin and even layer on the heatsink where the new lamp will be placed.
6. Carefully place the new bulb on top of the thermal paste and secure it with the original screws.
7. Connect the new bulbs.
8. Your installation is now complete and you can enjoy your new DRL bulbs!
